

April 30th, 2021

Meitoku Gijuku Junior and Senior high school
Headmaster Hiroaki Sakimoto

**Confirmation of COVID-19 Cases
at the Kochi Prefectural Volleyball Tournament**

Dear parents and guardians,

We would like to thank all parents for their cooperation in prevention measures.

According to the recent confirmation of COVID-19 infected volleyball players and related people in the prefecture, our school's 4 students (2 dormitory and 2 commuting students), who played in the tournament, were confirmed to be infected with COVID-19 yesterday.

In order to investigate the close contacts according to the public health center and prevent the spread of infection at our school, we will temporarily close our school today Friday, April 30th to sterilize the entire school including dormitory facilities.

In the future, if there are students who need to be monitored for their close contact, the health center or school will contact them individually, so please refrain from contacting the health center directly.

If there is any new information, we will post it on our website as soon as it's available.

At school, we will continue to take thorough measures to prevent the spread of infection, so please continue to take basic prevention measures at home as well such as washing your hands and wearing a face mask.

Please note that all private information about infected people is disclosed by the public health center and not the school, and we ask for your understanding and cooperation so that discrimination will not be directed towards infected people.
