**Notice of Short Days  
for the Prevention of COVID-19 Infection**

Dear parents and guardians,

We would like to thank all parents for their cooperation in prevention measures related to COVID-19.

Though we already posted on our school's website, four female volleyball students were confirmed to be positive for COVID-19 on Thursday, April 29<sup>th</sup>. As a result, the public health center investigated close contact candidates and a couple of our students did a PCR test as a precaution and they were all "negative" for COVID-19 on April 30<sup>th</sup>, Friday.

After infected people were confirmed, we thoroughly sterilized the entire school on Friday, April 30<sup>th</sup>, but in order to take further measures to prevent infection, from May 6<sup>th</sup> (after the Golden Week holidays) to 14<sup>th</sup>, classes will only be held as a half day (4 hours in the morning). (For commuting students, there are two buses departing the school at 13:30 and 18:15)

We will continue to take thorough infection prevention measures and in addition please continue to take preventive measures at home as well such as washing your hands and wearing a face mask.

Last but not least, please take care and best wishes for you and your family.
